## Wound Care Clinic

# Are You Missing Out on Life Because of a Non-Healing Wound?

**Newman**  
REGIONAL HEALTH  
*For your whole life™*

It's time to heal<sup>SM</sup>

# Compassionate, comprehensive care for people who have non-healing wounds.

## *It's time to heal!*

Being healthy and active are two of life's great pleasures.

For people who have wounds that won't heal, because of diabetes or other health conditions, sometimes life can lose its enjoyment because of pain, fear and reduced ability to get around.

But there is good news. Effective treatments can help heal wounds, and that's what the Newman Regional Health Wound Care Clinic is all about.

Our wound care team is made up of doctors, nurses, therapists and other medical professionals using advanced care treatments to help wounds heal so that you can feel better and get back to enjoying life.

## *We put patients first*

There are many medical conditions, even ones that you may not be aware of, that cause non-healing wounds. We perform a series of diagnostic tests and, once a cause is clearly identified and understood, inform your physician. We will then work with him or her to develop your wound treatment plan.

This collaborative approach helps to assure you that your doctors know about the treatments and medications you receive to help heal your wound.

## *We work with your doctor*

We work with you and your doctor, like a team, to develop a treatment plan which meets your needs. Treatment could begin during your first appointment.

## *Advanced treatment options*

We have experience with some of the most advanced treatments available for healing wounds.

## *Insurance coverage*

Many health plans cover wound care treatment. Your coverage depends on your specific plan. Be sure to bring your insurance cards with you when you visit our clinic.

## *Please call for an appointment*

Making an appointment is the first step to getting better. Ask your doctor to contact us, or feel free to call yourself.

Our number is (620) 340-6174.

We are here to help you feel better.
