Scholarship Checklist
For Students Beginning Healthcare Education

*This checklist should be used by referees ranking applicants who are just **beginning** their education in healthcare. It should be used for applicants with **NO** job/work experience in a healthcare field. Applicants that should use this checklist include all graduating high school seniors/first semester college students. If a student has earned a CNA, but has no work experience in that area, use this checklist. Also, this checklist should be used for applicants making career changes into healthcare fields from non-health related jobs.*
